

IBM i TECHNOLOGY

# IBM AS/400

KMG provides consultation and technical services for IBM i technology systems to increase the efficiency and reduce cost of your operating IBM systems.

## Superior IT Infrastructure, Enhanced Efficiency, Reduced Costs

Efficient IT infrastructure and services are the backbone of companies. They are also fundamental in supporting critical business applications. Not only do they need to be efficient but also adaptable to handle every new business opportunity. Over many years, IBM i servers and platforms have served small and medium companies to achieve just that.

With more than 20 years of expertise, KMG has been delivering exceptional consulting and technical services on IBM i technology to clients across the globe.

## Focused Expertise

KMG provides consulting, development and maintenance services over a complete spectrum of IBM i Power Systems (including AS/400, iSeries and System i). Our specialized services allow businesses to increase efficiency and reduce costs associated with operating IBM systems and we do so by conducting a thorough performance check and make recommendations to improve the efficiency and effectiveness of your systems.

The IBM i team at KMG has extensive experience in application management and delivery functions across industries like Insurance, Manufacturing, Financial Services, Retail and Healthcare. KMG delivers business value by leveraging IBM i expertise in virtually all service offerings across consulting, development, maintenance and training.

Through our maintenance engineering services for IBM iSeries systems, we help companies with viable alternatives so they can save on OEM maintenance expenses.

KMG has a strength 60 IBM i consultants and over 300 professionals involved in design, development and maintenance of IBM i applications. The team comprises of Delivery Managers, Project Managers, Team Leaders, Architects and Developers.

In addition to working on standalone IBM i technology, we have connected Web and GUI based applications in Java and Microsoft to the IBM i platform using related tools & technologies. KMG has the full spectrum of IBM i Technology expertise that includes and is not limited to COBOL/400 and ILE-COBOL, RPG II, III, IV, Free Form RPG, RPG/400 and ILE-RPG, Control Language, AS/SET, SYNON, DB2 and many more.
