KMG provides Portal & Intranet solutions to help businesses share and collaborate information more efficiently and effectively

Leveraging Information for Growth

The Internet industry continues to grow at rapid pace and so do the everyday social tools of the web. As a result, employees and partners also expect internal systems to be more friendly, productive and engaging. KMG provides personalized, role-based portal and intranet solutions leveraging the latest technologies to help organizations simplify business processes, increase engagement and achieve high adoption rates.

Today's business processes have a pressing need to disburse and collect multiple heterogeneous sources of information from distributed groups of users. Organizations seek to address such issues by adopting solutions that allow them a Single Point of Entry access to all the information in real-time. KMG's Portal and Intranet solutions cover very diverse applications such as Patient Portals, Employee Intranets, Policy Query/Submission Portals used by Brokers & Agents, Applications for a Cruise Concessionaire and multiple web-based BI/MIS systems among others.

Focused Expertise

The key to our success with Portal & Intranet projects is that we work across verticals and combine subject matter experts from respective sectors; thereby making the whole process easier for the clients. KMG strives to provide customized and cost-effective solutions to help clients get around their IT challenges. Our Portal and Intranet solutions include:

A user-friendly Enterprise Portal is considered the foundation of any high performance workplace. They have become a universally accepted platform that helps to connect people, provide access to crucial information, distribute data and foster productivity and engagement in an organization.

- SharePoint based Employee Intranets
- SharePoint based BI Solutions
- Complete development, integration and deployment of Enterprise Scale Web Applications
- B2C Portals
- Linking portals & web sites to Social Media Sites (Facebook, Twitter, LinkedIn)
- CMS Based Sites (WordPress, Drupal, Joomla)
- Corporate Presence Web Sites

Our primary objective is to make your business stronger and more efficient by fully utilizing Microsoft SharePoint development solutions. We help enterprises optimize and transform their virtual infrastructure through our expertise in SharePoint, Legacy systems and other complex IT environments. Our solutions help businesses in increasing their ROI, reduces time, cost and complexity associated with SharePoint.

Technology Offerings
