

KMG provides Health IT solutions that enhance efficiency of healthcare process and improve patient outcomes.

HEALTH IT

Helping Build the Future of Healthcare

A flexible healthcare system should be able to deliver better quality in terms of patient care and enhanced productivity for healthcare professionals. At KMG, we combine both technology and industry expertise to meet such objectives. Our flexible, Health IT-first approach is aimed to help organizations achieve real transformation through technology.

The Changing Face of Healthcare

Technological developments have changed the face of healthcare. But unlike other business lines, healthcare is not regarded only as a cost factor but as an investment towards a better, progressive future. The outcome of this investment is the enablement of a connected health ecosystem based on both Quality and Productivity. KMG offers custom-built solutions backed by over 20 years of unrivalled expertise in the healthcare vertical to help you with your business priorities.

Focused Expertise

The need for healthcare collaboration has never been greater. KMG works across the healthcare environment enabling organizations to leverage technology and enhance patient care. KMG helps clients get around their IT challenges through flexible and cost-effective services including:

- Development, integration and maintenance of applications
- Building Physician and Patient Centric Portals
- Enterprise Level mHealth Solutions
- Custom built solutions / extensions to major Hospital systems
- HL7 Based Interfaces
- HIE Related Work
- Management, implementation and 24x7 support for patient centric applications and processes
- System modernization and web enablement of existing applications
- Staff Augmentation

Today, both patients and providers rely on digital information and communication. Providers are racing to improve patient care while keeping cost low. At the same time, they must also keep up with the ever changing regulations. These are some of the sizeable set of challenges being faced by health organizations. KMG helps provide all such Health IT needs.

KMG has over 20 years of experience in providing clinical and IT solutions to clients in the healthcare industry with solutions spread across a complete portfolio of Web & Mobile Applications, HL7 Interfaces, Portals & Intranets, and Healthcare IT Interoperability Systems.

Integration capability for leading Health IT Standards and Vendors
